Cat. 1 & 2

TILLERS

A contractor's dream.

Ideal for landscapers, gardeners, and contractors, the Land Pride RTA25 Series forward rotation Rotary Tillers prepare seedbeds for gardening or lawn planting. Rugged and dependable, the RTA25 features a heavy-duty driveline, a parking stand for easy hook-up, and optional down pressure springs apply pressure on the rear deflector, holding larger debris in the tines for better pulverization in tough leveling conditions.

With a 76" working width, and adjustable lower hitch clevises, taking out your tire track is usually achievable. This allows for less overlap needed, meaning less time in the tractor seat.

RTA35 SERIES: Ready to tackle the tough stuff.

The RTA35 Series is Land Pride's toughest tiller, built to withstand the rigors of commercial jobs. The 35 Series Tiller is designed to go all day, day after day, in the most demanding jobs. With a 19" rotor swing diameter, this tiller can turn over a lot of dirt without much getting in its way. The RTA35 is ideal for landscaping, nurseries, and commercial gardening applications.
